Important Information

APPLICATION DEADLINES

The completed application must be filed with the chief appraiser before May 1 of the year for which timberland appraisal is requested. If the application is approved, a new application is not required in later years unless the land ownership changes, eligibility ends or the chief appraiser requests a new application.

DUTY TO NOTIFY AND PENALTIES:

The property owner must notify the chief appraiser no later than the April 30 following the change in use or eligibility. A change of land use for all or part of the property will trigger substantial additional tax plus interest (a rollback tax). Payment of a penalty may also be required for failure to notify the chief appraiser of a change in timber production or agricultural use or qualification. Notice must be delivered to the chief appraiser if:

- the property stops being used for timber production (e.g., voluntarily decide to stop actively managing the land to produce income);
- category of land use changes (e.g., from growing timber to grazing cattle); or
- the land is used for something other than agriculture (e.g., to build a shopping center on most of the land).

OTHER IMPORTANT INFORMATION

If the initial application form does not contain all essential information, the chief appraiser may request additional information that is necessary to determine whether the land qualifies for special appraisal. The chief appraiser may disapprove the application and request additional information. The chief appraiser may deny the application and that determination may be protested to the county appraisal review board in a timely manner. If the chief appraiser requests additional information from an applicant, the information must be furnished within 30 days after the date of the request, or the application is denied. For good cause shown, the chief appraiser may extend the deadline for furnishing the information by written order for a single 15-day period.
